ALBERTA TRANSPORTATION AND UTILITIES

CONSTRUCTION CONTRACT INCREASES APPROVED
 PURSUANT TO TREASURY BOARD DIRECTIVE 08/93

For the Quarter January 1, 1995 to March 31, 1995

Contract Number: 5308/93

Contractor: Thompson Bros. (Const.) Ltd.

Reasons for Contract Increase: This contract involved reclaiming asphalt pavement, grading, granular base course on Secondary Highway 686 West of Trout Mountain to Trout Mountain Road. Increased earthwork quantities were required to stabilize embankments over muskeg areas. The generally wet subsurface conditions required the use of large shallow landscape borrow sources rather than dugouts, resulting in increases in the quantity of topsoil excavation. Additional drainage control measures were required to facilitate construction.

Original \$ Amount: \$1,558,423.15

% Increase: 37.46%

\$ Amount of Increase: \$583,717.48

Contract Number: 5313/93

Contractor: South Rock Ltd.

Reasons for Contract Increase: This contract consisted of an asphalt concrete pavement overlay on Secondary Highway 838, West of Drumheller to Bleriot Ferry. The amount of distress in the existing base course surface was substantially more than originally anticipated, resulting in increased quantities for subgrade repair and asphalt concrete pavement items.

Original \$ Amount: \$1,157,164.20

% Increase: 16.11%

\$ Amount of Increase: \$186,421.73

Contract Number: 5459/94

Contractor: Sandstar Corporation

Reasons for Contract Increase: This project involved curve revisions, passing lane construction and asphalt concrete pavement overlays in the Mayerthorpe/Sangudo area. Due to high traffic volumes, effective accommodation of traffic was more difficult than anticipated, necessitating the construction of major temporary detour roads. In addition, safety related modifications were made to the curve revision and the passing lane designs at the time of construction. The deteriorating condition of Hwy. 22 combined with the addition of a truck turnout, further increased quantities of granular base course and asphalt concrete pavement. Curb and gutter construction through Mayerthorpe was substantially greater than originally anticipated due to the deteriorated condition of these structures at the time of construction.

Original \$ Amount: \$3,583,538.00

% Increase: 12.81%

\$ Amount of Increase: \$459,159.04

Contract Number: 5557/94

Contractor: Northside Construction Ltd.

Reasons for Contract Increase: Work on this Contract consisted of placing bridge stub fills and preloading deep fill areas on the Hwy. 2 McKenzie Road Interchange. Favourable late season weather conditions allowed an extension in the scope of the Work to include construction of the southwest access ramp fills and the reclamation of a depleted borrow pit. Completion of all of the prefill allows initial consolidation of the entire interchange earthworks as well as reducing the amount of construction congestion and work to be completed on site in 1995.

Original \$ Amount: \$802,720.04

% Increase: 35.18%

\$ Amount of Increase: \$282,397.15

Contract Number: 5434/94

Contractor: West-Can Seal Coating Inc.

Reasons for Contract Increase: This contract involved the application of a chip seal coat on Hwy. 22 near Calgary. The scope of the work was extended to include the seal coating of two bridge decks which increased quantities and equipment mobilization costs.

Original \$ Amount: \$98,345.00

% Increase: 10.50%

\$ Amount of Increase: \$10,330.27
