NOTICE OF INTENTION TO DESIGNATE PROVINCIAL HISTORIC RESOURCE

(Historical Resources Act)

File: Des. 851

Notice is hereby given that sixty days from the date of service of this Notice and its publication in the Alberta Gazette, the Minister of Community Development intends to make an Order that geological formation known as the Hoodoos, together with the land legally described as portion of LSD 12, Section 7, Township 28, Range 18, W4M as shown on Schedule A, attached, and municipally located near East Coulee, Alberta

be designated a Provincial Historic Resource under section 16 of the Historical Resources Act, R.S.A. 1980 c.H-8 as amended.

The reason for the designation are as follows:

Hoodoos are a relatively rare geological formation that is formed by differential weathering and erosion by water, wind and frost. They consist of a hard, well cemented "caprock" which protects and supports the softer, underlying column. The result is the formation of strangely shaped pinnacles or pillars of rock. Within the perspective of geological time, hoodoos are fragile and extremely temporary landforms.

The hoodoos situated between Drumheller and East Coulee, Alberta are an excellent example of the type of hoodoos found along the major river valleys of the plains. They are developed in soft cretaceous-bedrock with the caprocks eroding out of the harder sandstone beds within the formation.

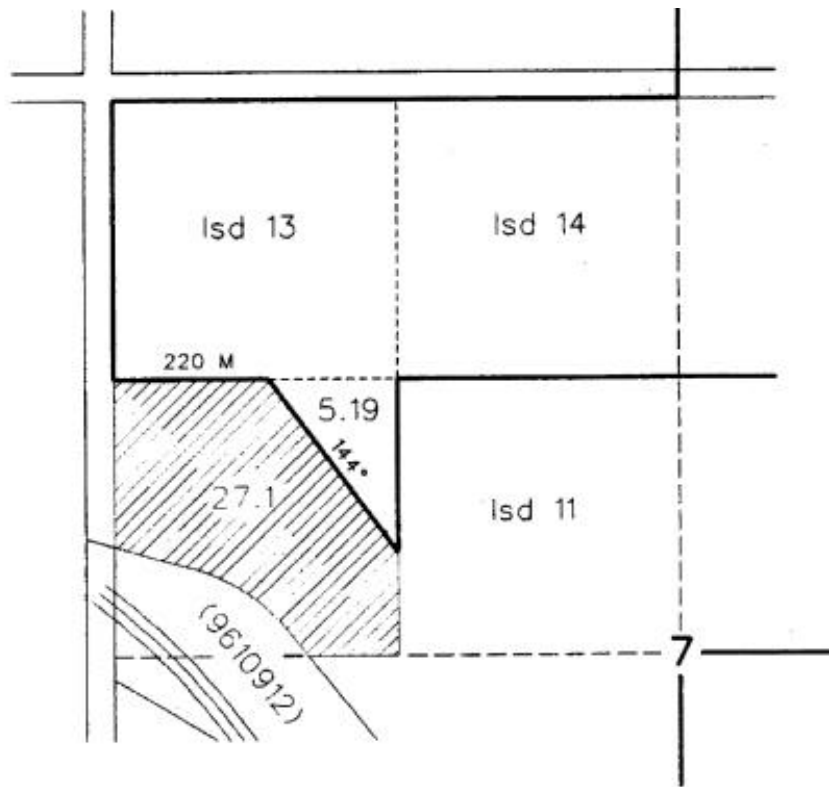

The Hoodoos are situated adjacent to the highway between East Coulee and Drumheller. They are very photogenic and are a popular tourist attraction. The Hoodoos are very well known and have become an internationally recognized icon of the badlands of Alberta. Owing to their location they are highly susceptible to damage from tourism related activity and vandalism.

It is therefore considered that the preservation and protection of the resource is in the public interest.

Dated October 18, 2000.

Stan Woloshyn, *Minister*.
