Interpretation

1(1) In this Regulation,

- (a) “authorization holder” means a person that has been issued a scale site authorization under section 12;
- (b) “check scale” means a scale conducted by a forest officer or a person authorized by the Minister to check the accuracy of another scale;
- (b.1) “Department” means the Department administered by the Minister;
- (c) “form TM 32” means form TM 32 prescribed by the *Timber Regulation*;
- (d) “form TM 35” means form TM 35 prescribed by the *Timber Regulation*;

- (e) “form TM 44” means form TM 44 prescribed by the *Timber Regulation*;
- (f) “mass scaling” means scaling conducted using the scaling method set out in section 3(1)(b);
- (g) “payment period” means payment period as defined in the *Timber Management Regulation*;
- (h) “scale” means to measure or estimate the volume of felled timber;
- (i) “timber operation” means timber operation as defined in the *Timber Management Regulation*.

(2) This Regulation applies to scaling conducted to provide the Department with an accounting of harvested timber.

AR 195/2002 s1;41/2010

Scaling

2 A person who scales timber shall do so in accordance with the procedures established by the Minister.

Scaling methods

3(1) A person who scales timber shall determine the volume of the timber in cubic metres by using one of the following methods:

- (a) by measuring the dimensions of each piece of timber and applying
 - (i) the Alberta Cubic Metre Scale, or the formula used to derive the Alberta Cubic Metre Scale, set out in
 - (A) Schedule 1 if the timber is coniferous, or
 - (B) Schedule 2 if the timber is deciduous,
 - or
 - (ii) the following formula, where authorized or directed by the Minister:

$$V = \frac{(A_1 + A_2)}{2} \times L$$

where

“V” is the volume of the piece of timber;

“ A_1 ” is the area of the small end of the timber in square metres;

“ A_2 ” is the area of the large end of the timber in square metres;

“L” is the length of the timber in metres;

- (b) by weighing the timber and applying
 - (i) a mass to volume ratio derived from scaling sample loads of timber in accordance with section 4, or
 - (ii) a fixed mass to volume ratio approved by the Minister;
 - (c) by applying any other method established by the Minister where authorized or directed by the Minister.
- (2) A person who scales timber using the methods set out in subsection (1)(a) or (c) may make deductions from the gross scaled volume to account for defects contained in that timber, in accordance with the procedures established by the Minister.

Sample scaling

4(1) The authorization holder for a scale site at which timber is mass scaled shall ensure that loads of timber are selected for sample scaling in accordance with scaling sampling plans approved by the Minister and the scaling sampling procedures established by the Minister.

(2) If a load of timber is selected for sample scaling under subsection (1), the authorization holder

- (a) shall, within 30 days after the load of timber was selected, ensure that a person holding a valid scaler’s permit
 - (i) scales the timber using the scaling method set out in section 3(1)(a) or (c), and
 - (ii) records the information collected by that person in accordance with section 5(1)(a) or (c),

and

- (b) shall ensure that a form TM 35 and a form TM 44 are completed in accordance with section 5(1)(b).

Recording information

5(1) A person scaling timber using the method set out in

- (a) section 3(1)(a) shall record the information collected on form TM 32 in accordance with the procedures established by the Minister;
- (b) section 3(1)(b) shall record the information collected on form TM 35 and form TM 44, in accordance with the procedures established by the Minister;
- (c) section 3(1)(c) shall record the information collected in a manner and form satisfactory to the director.

(2) Notwithstanding subsection (1), information that must be recorded in a form under subsection (1) may be recorded in an electronic format approved by the Minister.

AR 195/2002 s5;41/2010

Submitting records to Minister

6(1) The authorization holder for a scale site shall ensure that the records referred to in section 5 are provided to the Minister within 21 days following

- (a) the end of each month within which timber was scaled at that site, or
- (b) the end of each payment period within which timber was scaled at that site if the timber dues for that timber will be calculated in accordance with Schedule 4 of the *Timber Management Regulation*.

(2) If a scale site receives an annual volume of more than 70 000 cubic metres of timber, as determined by the director, the authorization holder for that site shall ensure that the records provided to the director under subsection (1) are provided in an electronic format approved by the director.

AR 195/2002 s6;41/2010

Production of records

7 A person who scales timber shall produce the person's scaling records and notes to a forest officer on demand.

Check scaling

8(1) The authorization holder for a scale site at which timber is mass scaled shall ensure that the 4 most recently scaled sample loads of timber are retained at the site and made accessible for check scaling.

(2) Notwithstanding subsection (1), a forest officer may permit an authorization holder to retain fewer than 4 sample loads at the scale site.

(3) If directed to do so by a forest officer, the authorization holder for a scale site at which timber is not mass scaled shall ensure that scaled timber is retained as directed by the forest officer and made accessible for check scaling.

Permit and authorization required

9(1) No person may scale timber using the method set out in section 3(1)(a) or (c) unless

- (a) that person holds a valid scaler's permit, and
- (b) the timber is at a scale site for which a scale site authorization issued under section 12 is in effect.

(2) No person may scale timber using the method referred to in section 3(1)(b) unless

- (a) the timber is at a scale site for which a scale site authorization issued under section 12 is in effect, and
- (b) the weighing equipment at that site meets the standards established by the Minister.

Scaler's permit

10(1) The Minister may establish classes of scaler's permits and may specify the scope of authority that may be exercised by the holder of each class of permit.

(2) An application for a scaler's permit must be made in the form specified by the Minister and be accompanied by the required fee.

(3) The director may issue a scaler's permit to an applicant who has

- (a) attained the age of 18 years,
- (b) subject to subsection (4), completed an instruction course approved by the Minister,
- (c) subject to subsection (4), completed an examination set by the Minister to a level satisfactory to the director, and
- (d) met any other requirements established by the director.

(4) An applicant who satisfies the director that he or she holds a timber scaling certificate, or the equivalent, issued outside Alberta is not required to meet subsection (3)(b) and (c) if

- (a) he or she has completed a scale that is check scaled, and
- (b) the check scale confirms his or her proficiency in the scaling methods used in Alberta.

AR 195/2002 s10;41/2010;99/2012

Term of permit

11(1) A scaler's permit expires on the date specified on the permit.

(2) Notwithstanding subsection (1), the director may cancel or suspend a scaler's permit

- (a) if the holder of the permit contravenes the Act or the regulations under the Act, or
- (b) if, in the director's opinion, it is in the public interest to cancel or suspend the permit.

AR 195/2002 s11;41/2010

Scale site authorization

12(1) The owner of a timber operation may apply in writing to the director for authorization to scale timber at a site under the owner's control.

(2) If the director is satisfied that a complete and accurate scale can be performed at the site, the director may issue a scale site authorization to the applicant and may attach conditions to the authorization.

(3) The director may cancel or suspend a scale site authorization

- (a) if the authorization holder contravenes the Act or the regulations under the Act,
- (b) if the authorization holder has failed to comply with a condition attached to the authorization, or
- (c) if, in the director's opinion, it is in the public interest to cancel or suspend the authorization.

AR 195/2002 s12;41/2010

Repeal

13 The *Scaling Regulation* (AR 403/92) is repealed.

Expiry

14 For the purpose of ensuring that this Regulation is reviewed for ongoing relevancy and necessity, with the option that it may be repassed in its present or an amended form following a review, this Regulation expires on June 30, 2021.
